

go SOLUTIONS & GoIDEA™

GoIDEA, our user-friendly IEP software is specifically designed to save staff time when writing IEPs.

Our built-in compliance checks ensure documents are filled out properly and in a timely manner.

The information from the IEP flows directly into our integrated Medicaid reimbursement module to reduce errors caused by duplicate data entry.

We maximize your Medicaid reimbursement; our specifically-designed fee structure is not only based on federal government best practices, but it allows you to recover up to 50% of your costs, according to state guidelines.
