

Go Solutions Success Story: Deer Valley School District

One-On-One Support That Helps Maximize Medicaid Reimbursements

Go at a glance

Go Solutions is committed to empowering school districts across the US with innovative solutions that positively impact student success and their school communities. From intervention to reimbursement and everything in-between, our IEP and Medicaid software and Medicaid billing team help ensure your district is maximizing participation in your State's Medicaid reimbursement program and is able to provide exceptional experiences for all students.

OVERVIEW

Deer Valley Unified School District (DVUSD) is committed to Continuous Improvement (CI), performance excellence, and quality and equity for all staff and students. DVUSD is located in Arizona and serves Phoenix, Glendale, Peoria, Anthem, New River, Cave Creek and unincorporated areas of Maricopa County. DVUSD covers over 367 square miles, and is one of the largest PreK-12 districts in the state. The mission of Student Support Services is to provide support and services for extraordinary educational opportunities for every learner.

“Being one of the largest districts in the state, I am really proud to say we are the number one school district in Arizona for achievement. As the Director of Student Support Services, I wear a lot of hats. A lot of the compliance, tracking, and auditing sits on my shoulders. Working with Go Solutions helps ensure we are compliant and that we aren't missing out on any opportunities to bill.

Goals

Preparing for Open Care

"A Go Solutions staff member met with us regularly to prepare us for Open Care as soon as it was announced by the state of AZ. With Go Solutions by our side we have the knowledge and guidance to take full advantage of this opportunity and expand reimbursement for services provided to non-special education students who are Medicaid eligible."

-Dr. Melissa McCusker

Staying in the know

"We really benefit from the trainings, especially during COVID it evolved into virtual trainings and they worked really well. Go Solutions staff are willing to do multiple trainings with each department such as speech language pathologists, occupational therapists, physical therapists and more. The system we have in place with the trainings works really well to ensure our staff is always caught up."

-Dr. Melissa McCusker

Insights through data

"The interaction with the dashboard will identify providers that haven't billed for a period of time and this information helps us catch any reimbursement gaps that may not otherwise be filled. Additionally, it identifies and categorizes things like parental consent that still need to be signed on. The way the system tracks each individual service and provides us with that data gives me the insights I need to do my job."

-Dr. Melissa McCusker
